Colorado Medicare Supplement Rate Increase

Dear Valued Agent,

We will be increasing premiums for our Medicare Supplement/Select plans in Colorado effective June 10, 2011. Letters to policyholders regarding the rate adjustments will be mailed from our office beginning on June 1, 2011.

All applications signed and dated on June 9, 2011, or earlier, and received in our office by June 14, 2011 should use the current premiums. Applications signed and dated on or after June 10, 2011 must use the new premiums.

You can continue to use your current supply of 2011 Application Packs, however, you will need to download the New Outlines from our website in the "Forms" section at www.sentinelife.org. You can also order new supplies of state approved Application Packs with new premium inserts using the supply request form included with this letter.
